1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1-3,8-15 rejected under 35 U.S.C. 102(b) as being anticipated by Sutter et al. 4388921. Please note fig 13 where bushing 101 is fitted in bearing member 97 in such a way that it is held in place. Note also threadless screw head 99 that is form fitted into bushing 101.

3. Claims 1-3,8-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant in claim 1 recites "threadless which is considered to be a negative limitation without any bases of critically set forth in the specification.
